

Enviropower

CONSERVE TO SERVE

*"Your Partner in Sustainable
Water Treatment Solutions"*

INTRODUCTION

Our dedication to practical, cost-effective solutions has built our strong reputation for technical excellence, highest quality outcomes, and diversity of skills to meet all opportunities for successful, timely completion of projects.

OUR AGENDA

To be at the forefront of technological innovation while ensuring the preservation of our planet's most precious resource. With a proven track record of excellence and a commitment to environmental responsibility, we bring unparalleled expertise to every project we undertake.

OUR EXPERTISE

Enviropower is dedicated to revolutionizing the way industries approach water treatment. We offer a broad spectrum of services, including design, drawing, operation, maintenance, annual maintenance charges, and installation of cutting-edge water treatment systems. Our expertise spans diverse industries and applications, allowing us to address the unique needs of our clients with tailored solutions.

OUR SERVICES

01

SEWAGE TREATMENT PLANT
(STP)

EFFLUENT TREATMENT PLANT
(ETP)

02

03

SOFTENING PLANT

DEMINERALIZATION PLANT

04

05

REVERSE OSMOSIS

MEE PLANT

06

07

WATER TREATMENT PLANT

ZERO LIQUID DISCHARGE
(ZLD)

08

Sewage Treatment Plant (STP)

The primary objective of an STP is to remove contaminants and pollutants from the wastewater before it is discharged back into the environment.

Industrial
Wastewater
Treatment

Agricultural
Wastewater
Treatment

Municipal
Wastewater
Treatment

Effluent Treatment Plant (ETP)

The primary purpose of an ETP is to remove harmful pollutants and contaminants from the industrial effluents.

Compliance with
Environmental
Regulations

Reuse and
Recycling

Protection of
Water Resources

SOFTENING PLANT

This process involves exchanging the calcium and magnesium ions with sodium or potassium ions, resulting in softened water that is less likely to cause scale buildup.

Residential and
commercial
water supply

Industrial
processes

Boiler feed water
treatment

Cooling systems

DEMINERALIZATION PLANT

This process involves passing the water through ion exchange resins that selectively remove ions, resulting in highly purified water.

Power
generation

Pharmaceuticals

Laboratory
and research

Electronics
industry

REVERSE OSMOSIS

Is a process that involves applying pressure to a concentrated solution to force the passage of water through a semipermeable membrane.

Drinking Water
Purification

Dialysis
Treatment

Agricultural
Applications

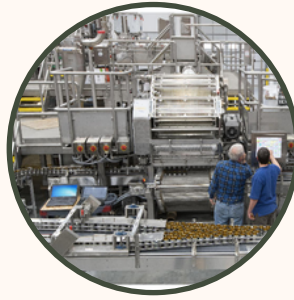

Desalination

MEE PLANT

The MEE plant consists of a series of evaporator vessels or stages, each operating at successively lower pressures and temperatures.

Desalination

Food and Beverage Industry

Chemical and Pharmaceutical Industry

WATER TREATMENT PLANT

These plants play a crucial role in ensuring access to clean and safe water for communities, industries, and agriculture.

Drinking Water Supply

Industrial Processes

Agricultural Use

ZERO LIQUID DISCHARGE (ZLD)

This process involves advanced treatment technologies to achieve a high level of water recovery, resulting in minimal or zero liquid waste being discharged from the plant.

Municipal wastewater treatment

Oil and gas industry

Introducing our comprehensive range of high-quality chemicals at unbeatable prices

We are your one-stop destination for a wide variety of chemicals

- offering cost-effective solutions for all your industrial, commercial, and manufacturing needs
- With a commitment to quality, reliability, and affordability, we provide a diverse portfolio of chemicals to meet the demands of diverse industries
- With a commitment to quality, reliability, and affordability, we provide a diverse portfolio of chemicals to meet the demands of diverse industries.

our extensive product line

- Manufacturing industries
- Requirements of the pharmaceutical
- Food and beverage
- Agricultural
- Water treatment

WHY US?

ENVIROPOWER

"Building a Cleaner, Greener Future"

At Enviropower, we are not just a company; we are a driving force for positive change in the realm of water treatment. Our dedication to innovation, integrity, and environmental responsibility sets us apart as a leader in the industry. We invite you to explore the possibilities with Enviropower and discover how our expertise can elevate your water treatment initiatives to new heights.
